8. Dr. Dharitri Talukdar
9. Mr. Jatin Rajbongshi
10. Mr. Bhupen Kalita

Nature of Participation :- Informal (B.Com 3rd Semester)

Activities Carried out / Details Description of the Programme :-

DETAILS DESCRIPTION OF THE PROGRAMME :-

The industrial visits play a very pivotal part in a student's life. The students attain a greater learning resource as well as curve when visiting companies than referring to mere textbooks. All the practical exposure aside, students find industrial visits a bliss for all the fun that happens in between. The travel to and from is what adds up to make the best memories of a student's life.

Planning the entire programme schedule well in advance is by far the most crucial part of organizing an industrial visit. The team has got to plan the timings and activities that are to be carried out during the course of the visit. In doing so the students can make the most of their time and even consider doing something fun if they get done a little early. Creating a day's blueprint can always help one navigate through the day without confusion and with clarity.
